

ACETAMIPRID 20% SP

SYSTEMIC INSECTICIDE

RAPID ABSORPTION

LONG RESIDUAL ACTIVITY

PLANT PROTECTIVE

PRODUCT DESCRIPTION

Systemic neonicotinoid insecticide with rapid knockdown and long residual activity against sucking pests. Absorbed by plant tissues to protect new growth.

TARGET PEST

APHIDS

WHITEFLIES

THRIPS

CROPS

Cotton, Cabbage, Okra, Chilli, Rice (Paddy)

MODE OF ACTION

Binds to nicotinic acetylcholine receptors, disrupting neurotransmission, causing paralysis and death.

Crops	Target Pest	Dosage/ha	Water dilution rates
Cotton	Aphids, Whiteflies, Thrips	500-1000g	500-750L
Cabbage	Aphids, Whiteflies	400-600g	400-600L
Okra	Aphids, Thrips	400-600g	400-600L
Chilli	Thrips, Whiteflies	500-800g	500-750L
Rice	Brown Plant Hopper	1250g	500-750L
