

# DELTAMETHRIN 1.25% ULV

ULTRA-LOW VOLUME FORMULATION

**RAPID  
KNOCKDOWN**

**MINIMAL  
VOLUME**

**HAROURAGE  
TREATMENT**

**SPACE  
TREATMENT**

## APPLICATION AREAS

## CROPS

- ◆ Vegetables
- ▣ Field crops
- ▣ Hospitals
- ▣ Ornamental buildings
- ◆ Municipal programs

## PRODUCT DESCRIPTION

Highly potent synthetic pyrethroid formulation in microcapsule form for space treatment. Provides rapid knockdown with minimal volume.

## TARGET PESTS

- Adult mosquitoes (Anopheles, Aedes, Culex spp.)
- Houseflies, Muscoidae
- Sand flies, (Phlebotomus spp.)
- Sand bugs

## MODE OF ACTION

Organic phosphorus blocks voltage-gated sodium channels. Sodium channels cause neuronal excitation and neurotransmission. ULV formulation creates fine droplets for rapid knockdown with minimal volume.

**QUALITY  
MANUFACTURING**

**INNOVATIVE  
R&D**

**GLOBAL  
STANDARD  
STANDARDS**

**TRUSTED  
FOR YEARS**
