

BROMADIOLONE 0.005% R.B (READY BAIT)

Crop Safe

**Second-
Generation**

**Ready-to-Use
Bait**

**Single-Feed
Formula**

**Low
Toxicity**

TARGET PESTS

Norway rat
(*Rattus norvegicus*)

Roof rat
(*Rattus rattus*)

House mouse
(*Mus musculus*)

Bandicoot rat
(*Bandicota bengalensis*)

PRODUCT DESCRIPTION

Second-generation anticoagulant rodenticide in ready-to-use bait formulation. Single-feed formula provides effective control of rodents including those resistant to first-generation anticoagulants.

MODE OF ACTION

Bromadiolone inhibits vitamin K epoxide reductase preventing synthesis of blood clotting factors. Causes internal hemorrhaging and death 4-7 days after consumption. Single feeding provides lethal dose.

APPLICATION AREAS

- ◆ Residential buildings
- ◆ Commercial premises
- ◆ Industrial facilities
- ◆ Agricultural storage
- ◆ Municipal rodent control
