Chilli
Betel
Banana
Coffee
Potato
Tobacco
Tomato
Coconut
Vegetables
Field crops
Cereals
Fruits
Ornamentals

PRODUCT DESCRIPTION

Comprehensive broad-spectrum contact fungicide and bactericide containing approximately 50% metallic copper equivalent. Forms protective layer on leaf surfaces with excellent weather resistance

MODE OF ACTION

Releases copper slowly on leaf surfaces, protecting plants against fungal and bacterial diseases. Provides strong preventive protection and lowers disease pressure

COMPREHENSIVE TARGET DISEASES

Downy Mildew, Anthracnose, Leaf Spot diseases, Fruit Rot, Rust, Blight diseases, Late Blight, Early Blight, Bacterial Spot/Speck, Citrus Canker, Bacterial diseases

DOSAGE TABLE

Multiple crops: 2.5-5.5 kg/ha, 750-1000L water

APPLICATION RECOMMENDATIONS

Apply 1.5-3 kg/ha or 2-3 g/L, spray preventively every 7-14 days, avoid excessive use
