

DINOTEFURAN 70% WG

SYSTEMIC INSECTICIDE

HIGH-STRENGTH
NEONICOTINOID

FAST DURABLE
CONTROL

RESISTANT
SUCKING PESTS

SYSTEMIC CONCENTRATED
FORMULATION

TARGET PESTS

Aphids

Whitefly

Leafhopper

Thrips

CROPS

-  Cotton
-  Brinjal
-  Paddy
-  Grapes
-  Citrus

PRODUCT DESCRIPTION

High-strength neonicotinoid for fast, durable, and high-level control of resistant sucking pests in vegetables, cotton, and citrus.

MODE OF ACTION

Dinotefuran strongly stimulates nicotinic acetylcholine receptors in insects, resulting in continuous nerve firing, paralysis, and death. Its systemic and concentrated formulation provides rapid and long-lasting pest suppression.

TARGET PESTS LIST

- Whiteflies
- Thrips
- Aphids
- Green leaf hopper
- Brown plant hopper
- White backed plant hopper

DOSAGE TABLE

Crop & Pest	Dosage	PHI
Cotton -Aphids/Whitefly/Leaf Hopper	87gm/500L	17 days
Brinjal -Jassids/Aphids/Whitefly	87gm/500L	7 days
Rice -Brown Plant Hopper/White Backed Plant Hopper/Green leaf Hopper	88gm/500L	32 days

APPLICATION BENEFITS

High-strength neonicotinoid for resistant pest control, fast durable and high-level suppression, systemic concentrated formulation, continuous nerve firing and paralysis mechanism.
