NEMATICIDE

GRANULAR
FORMULATION

SYSTEMIC
PROTECTION

WORKER SAFETY
ADVANTAGES

TARGET PESTS

Damaged Roots

Healthy Roots

Root knot nematode (*Meloidogyne incognita*)

PRODUCT DESCRIPTION

Non-fumigant nematicide in granular formulation offering effective control of root-knot nematodes. Provides systemic protection with minimal environmental impact and worker safety advantages over fumigants

CROPS

-  Capsicum
-  Tomato
-  Cucumber
-  Okra
-  Pomegranate

MODE OF ACTION

Fluensulfone disrupts neurological functions in nematodes, affecting their motility and feeding behaviour. Inhibits nematode reproduction and prevents root galling, promoting healthy root development

DOSAGE INFORMATION

Tomato-1.0g/plant	& 22.2-25.6Kg/ha
Cucumber-1.0g/plant	& 8.0-10Kg/ha
Okra-1.0g/plant	& 40.0-45.5Kg/ha
Pomegranate-10.0g/dripper	& 40.0g/plant

APPLICATION BENEFITS
