PESTICIDES INDIA PVT LTD

CARTAP HYDROCHLORIDE 50% SP

INSECTICIDE

PRODUCT DESCRIPTION

Cartap Hydrochloride 50% SP is a nereistoxin-based insecticide with contact and stomach action showing unique systemic properties. Effective against lepidopteran and coleopteran pests with minimal impact on beneficial insects.

MODE OF ACTION

Cartap hydrochloride blocks nicotinic acetylcholine receptors in insect nervous system, causing initial excitation followed by paralysis. It metabolizes to nereistoxin, providing prolonged insecticidal activity.

TARGET PESTS

Stem borer

Leaf folder

Shoot borer
