

MALATHION 50% EC

INSECTICIDE

**BROAD-SPECTRUM
CONTROL**

**RAPID KNOCKDOWN
& REPELLENCY**

**FEEDING
INHIBITION**

**PARALYSIS &
MORTALITY**

TARGET PESTS

Broad-spectrum organophosphate insecticide with contact, stomach, and fumigant action. Widely used for control of sucking and chewing pests with relatively low mammalian toxicity.

CROPS

- Vegetables
- Stored Grains

CROPS

- Vegetables, Stored Grains

TARGET PESTS

- Aphids (*Aphis* spp.)
- Fruit flies (*Bactrocera* spp.)
- Thrips (*Thrips tabaci*)
- Whitefly (*Bemisia tabaci*)
- Stored grain pests (*Tribolium* spp., *Sitophilus* spp.)

DOSAGE & RECOMMENDATION

CROPS	TARGET PEST	DOSAGE /Ha FORMULATION (ml)	DILUTION	PHI
Paddy (Rice)	Rice Hispa		500-1000L	-
Cabbage	Mustard aphid	1500	500-1000L	-

APPLICATION BENEFITS

- Rapid knockdown and repellency. Broad-spectrum control.
- Quick feeding cessation. Continuous nerve stimulation leading to rapid mortality of pests.
