PESTICIDES INDIA PVT LTD

MANCOZEB 64% + METALAXYL 8% WP

COMBINATION FUNGICIDE

COMBINATION MULTI-SITE ACTION

PREVENTIVE + CURATIVE ACTION

OMYCETE + FUNGAL PATHOGENS CONTROL

RESISTANCE MANAGEMENT

TARGET DISEASES

Downy Mildew (*Pseudoperonospora cubensis*)

Late Blight (*Phytophthora infestans*)

Damping Off (*Pythium spp.*)

CROPS

Grapes

Potatoes

Vegetables

Fruits

Tobacco Nursery
Mustard
Black Pepper

PRODUCT DESCRIPTION

Mancozeb 64% + Metalaxyl 8% WP is combination fungicide providing both contact and systemic action. Offers broad-spectrum disease control with preventive and curative properties against oomycete and fungal pathogens.

MODE OF ACTION

Mancozeb provides multi-site contact activity inhibiting various enzyme systems. Metalaxyl inhibits RNA polymerase blocking protein synthesis in oomycetes. Combination offers complementary action and resistance management.

DOSAGE

| Crops | Common Disease | Dosage A.i (g/ml) | Formulation kg/ml/% | Dilution in (Ltr./ml) | PHI* |
|-----------------|--------------------------------|-------------------|---------------------|-----------------------|-----------------------|
| Grapes | Downy mildew | 2800gen/0 | 1Ll | 500 | Not less than 3 weeks |
| Tobacco Nursery | Damping off | 0.750-750 | 0.10L/100Ltr. | (1000m) | Not less than 1 weeks |
| Mustard | White rust & Alternaria blight | 0.500gm | 0.10L/100Ltr. | 1000lt. | Not less than 1 weeks |
| Potato | Late blight | 0.10g | | 500Ltr. | Not less than 3 weeks |
