

ALPHACYPERMETHRIN 10% SC

QUICK KNOCKDOWN INSECTICIDE

QUICK KNOCKDOWN

BROAD SPECTRUM

RESIDUAL ACTIVITY

TARGET PEST

BOLL WORM

CROPS

- Cotton

PRODUCT DESCRIPTION

Water-soluble suspension concentrate providing quick knockdown of broad spectrum pests. Exhibits both contact and residual activity with easy mixing and application.

MODE OF ACTION

Alphacypermethrin interferes with sodium ion transport in insect nerve cells, leading to repetitive firing, paralysis, and death. Its residual activity provides extended protection.

DOSAGE

Crops	Target Pest	Dosage/ha (ml)	Water (L)
Cotton	Boll Worms	250-300	500-1000

Strong Manufacturing

Innovative R&D
