RAPID ABSORPTION

CURATIVE ACTION

PLANT PROTECTIVE

TARGET PEST

APHIDS

WHITEFLIES

SPIDER MITES

CROPS

- Vegetables
- Fruits
- Ornamentals

PRODUCT DESCRIPTION

Advanced neem-based botanical insecticide with enhanced concentration for improved efficacy. Acts as antifeedant, growth regulator, and reproductive inhibitor with environmental safety.

MODE OF ACTION

Azadirachtin disrupts hormonal balance in insects, preventing molting, feeding, and reproduction. Gradual mortality occurs, ideal for sustainable pest management.

DOSAGE

Crops	Target Pest	Dosage/ha (ml)	Water (L)
Vegetables	Aphids, Whiteflies, Spider Mites	XXX	XXX
Vegetables	Aphids, Whiteflies, Spider Mites	XXX	XXX
